

ARAMCO SERVICES COMPANY

May 9, 1991

To whom it may concern,

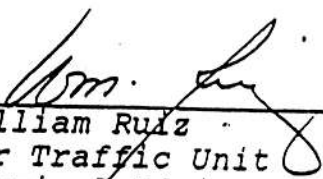

Farren Co. Inc. was contracted by Aramco Service Co. to provide an expedited packing and trucking service for crucial material that was required to help contain and recover an oil spill in the Arabian Gulf.

I am very please to report that the product delivered by Farren exceeded most industries standards even with the constrains they were subject to; short lead-time (holiday included), constricted packing specifications and a delivery schedule to an international air carrier that often changed. Farren met these challenges with an aggressive, unruffled attitude.

Additionally, Farren's total charge for packing and delivery was less than the other solicited bidders' rates for packing only.

I, would not hesitate in contacting or recommending Farren's services if the circumstances ever transpired.

Respectfully,

William Ruiz
Air Traffic Unit
Terminal Advisor
